

Gądko, 30.08.2007

Dear Sirs,

As you know, a new toll system, so-called MAUT, is in force on German motorways from 2005. It applies to all vehicles and truck units with a maximum loading capacity exceeding 12 t. It covers both carriers who pass through Germany with transit and those who deliver goods to a final consignee to/from Germany. The amount of charges depends on the exact number of kilometres driven on paid motorway sections, a number of vehicle axes and an engine class as far as the emission of waste gas is concerned.

We inform that according to the decision announced on 22 August this year by the Ministry of Transport in Germany, as of 1 September 2007 new higher MAUT rates shall apply in Germany. The average rate of 0,124€/km will increase to ca. 0,135€/km. The announcement also specifies the date of next toll change, i.e. October 2008.

The aforementioned decision shall directly influence the raise in the cost of transport companies' business.

The Raben Group builds its relations with Customers on the basis of open and fair principles and therefore proposes the toll fare to be reflected in the simple one-to-one interpretation of the relation between the cost and the amount of driven kilometres.

The change will be reflected only in the rate resulting from the increase of rates which in Germany are in force from 01.09.2007. The MAUT toll, as it has been up till now, will not constitute the basic freight rate but will be specified separately on an invoice as the cost factor, not dependent.

The Customer Service Department and the Sales Department of the Raben Group will provide you with all necessary information related to changes in price calculation rules for traffic in which MAUT toll applies..

Yours faithfully,

Janusz Anioł
Wiceprezes Zarządu
Dyrektor Raben Polska

Paweł Rymarowicz
Wiceprezes Zarządu
Dyrektor Operacyjny Raben Polska

Sylwia Maciejewska
Dyrektor Dystrybucji Międzynarodowej
Raben Polska

Enclosed you find MAUT table, which has been prepared on the basis of the changed toll in Germany.

Table of MAUT charges for groupage shipments with the payable weight ranging from 1kg to 24000kg. Net rates in €
